

It brings me great pleasure to write this letter for supporting my respected English teacher Mrs. Plattner. She started to tutor my English from the winter in 2012. It is a wonderful and remarkable study experience.

I was born in China and have been in United States for more than 7 years. After I finished my Ph.D. study, I started to work as an engineering consultant in Peoria IL area. At that time, although I had been learning English for almost 20 years, I still felt insufficient in my new professional life, especially when I was discussing with clients through a phone call or web based conference.

Mrs. Plattner used her special way to identify my routine mistakes and incorrect habits in English, and then made an individual program based on these findings. After several months training, all my colleagues noticed the improvement of my daily English use. This past October, I had a conference paper to present in front of more than one hundred peers in Albuquerque NM. Mrs. Plattner helped me to revise and rehears this 45 minutes presentation several times. The final presentation was very successful.

Mrs. Plattner is still tutoring my English now, as I am preparing for the Toefl ibt exam. I need a high oral score (26/30) to obtain the Professional Engineering license. We are confident I will accomplish this requirement shortly.

I highly recommend Mrs. Plattner to any English-as-second-language friends who need English improvement for any reason or requirement.

Wenchao Wang, Ph.D.
